

FEATURES

- Complies to EN61340-5-1
- 96% polyester, 4% conductive fibres
- 195g/m2 fabric weight
- Available in White, Light Blue, or Navy Blue
- Sizes S-XXXL
- Conforms to EN1149-5 2009 and EN61340-5-1 2007
- ESD symbol on sleeve
- ESD symbol on sleeve
- CE certified and UKCA marked

These CN20 ESD T-Shirts are ideal for use in multiple environments including those that require electrostatic protection. As well as being conductive these T-Shirts are lightweight and extremely comfortable so can be worn for long periods of time. They can be paired with our CN21 Polo Shirts, CN11 ESD Trousers or the CN10 coats for over-all protection. This product conforms to EN1149-5 and EN61340-5-1 safety standards.

Features

- 195g/m2 fabric weight
- ESD Anti-Static—Comfort Fit
- Colours: White, Light Blue or Navy Blue
- Sizes: S-XXXL
- Composed of 96% polyester, 4% conductive fibres
- Conforms to EN1149-5 2009 and EN61340-5-1 2007
- ESD symbol on sleeve
- CE certified and UKCA marked

Benefits: A build up of electrostatic discharge (ESD) can damage sensitive electronic components or give fire risks when handling solvents and other flammable materials. These garments are perfect for use in ESD electrostatic protected areas. Conductive fibres in garments work by preventing the static charge build up by allowing it to dissipate through the conductive fibres and go to earth via skin contact. We also supply ESD coats, ESD Polo Shirts, ESD Trousers, ESD Fleece, ESD Hats, ESD Sweatshirts and many more — call for more information.

Washing Guidelines: Max Temp 40 Deg C, Do Not Bleach, Can be tumble dried on a low temperature setting, Warm Iron, Dry Cleanable.
