

# VX2 Portable Dual Inlet Fume and Dust Extractor

**A quiet, compact and feature rich, low cost fume extraction system.**

**RECYCLE CLEAN AIR BACK INTO THE ROOM – NO NEED FOR HOLES IN WALLS OR ROOFS!**

The **VX2** extraction unit is designed primarily to extract and filter fine airborne dust and fumes created from many light industrial applications.

This portable system is supplied with a range of arms and accessories to suit most applications. Filtration is provided via individual Pre, HEPA and Gas cartridges plus specific filtration can be provided for Dust only or VOC only applications. Variable speed control and infrared remote control come as standard.

Minimal installation allows this unit to be moved with the work bench when factory layouts need changing due to production challenges.

**Suitable for the following:**

- Soldering
- Adhesives
- Organic solvents
- Fine dust and particulate
- Low volume laser marking/engraving

Control panel and remote control

**VX-1 Unit Filter Configuration**

Replacement Filter Pad Inserts

PreBox Cell

Certified H13 HEPA Cell
